ACCU-LINE WELL SERVICES OF BROUSSARD, LA ANNOUNCES PURCHASE OF BAYWATER WIRELINE

FOR IMMEDIATE RELEASE: April 4, 2023

BROUSSARD, LOUISIANA: Accu-Line Wireline Services, LLC and Accu-Line Well Services are pleased to announce the acquisition of Baywater Wireline and the hiring of its personnel into the Accu-Line family. We want to thank the people at Baywater Drilling Inc. that worked tirelessly to make this acquisition happen in a timely fashion and all those at Accu-Line that also worked on this project.

“It’s a proud moment for Accu-Line to successfully acquire this operation. Its people, customers and assets will be well cared for as a part of Accu-Line” said Buddy Dearborn, CEO.

This acquisition results in Accu-Line having two (2) bases in the Broussard area and one (1) in Houma to service our customers on land and offshore. The former Baywater Wireline location in Broussard will be focused on Electric Line operations as is the Houma location, currently. Slickline and our other services will soon expand in the Houma location as well.

We appreciate the trust and support of our customer base and look forward to further expansion and diversification over the coming months and years.

Thank you,
The Accu-Line Family
